### **DETAILED ACTION**

This office action is a response to the amendment filed on 10/18/2004.

#### ***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### **IN THE SPECIFICATION**

Before the "Field of the invention" on Page 1 of the specification, inserts a new paragraph as --This is a division of application Serial No. 10/241,200 filed 9/11/2002, now US PAT. 6,774,758--.

#### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance: Upon further consideration the prior art of record of Elms in view of Boggavarapu fails to disclose the claimed invention. Elms in view of Boggavarapu teaches facilitating a process of fabricating an inductor of Elms by adjusting the configuration (width) of the air gap to produce a desired inductance characteristic for the inductor by Boggavarapu in order to produce a desired inductance characteristic for the inductor. Elms in view of Boggavarapu fails to teach that the first leg length and the second leg length are

different in the first and second predetermined number of the first and second laminations and the arrangement of the first and second predetermined number of the first and second laminations in the first stack to produce the desired non-linear inductance characteristic for the inductor (as per claim 9) and the second portion of the gap is disposed between the first and the third portion having a first width (as per claim 25) and the stepped edge of the first leg is aligned to form a stepped end of the first leg portion of the first stack (as per claim 30).

It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 9 and 22-39 are allowed.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul D Kim whose telephone number is 703-308-8356. The examiner can normally be reached on Monday-Friday between 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on 703-308-1789. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
